Product Description

High Quality 12v Lithium Battery 100ah Electric Car Battery 240ah Lifepo4 Battery Solar Energy

Fast Charging: RV LiFePO4 batteries have excellent charging efficiency and can accept high charge currents, allowing for faster charging times. This means you can spend less time waiting for your battery to recharge and more time enjoying your RV adventures.

Deep Discharge Capability: LiFePO4 batteries can be discharged to a much lower depth of discharge (DOD) compared to lead-acid batteries without causing significant damage. This means you can utilize a larger portion of the battery's capacity, maximizing the usable energy in your RV battery system.
